## Remote Learning: Code of conduct for live sessions

- 1) **Be ready** – make sure you are dressed, have finished your breakfast and join the meeting on time. Make sure you have all the equipment you will need ready to hand.
- 2) **Be comfortable** – make sure you are at home, sitting down in a quiet space on your own.
- 3) **Mute yourself** – put up your hand if you would like to say something, and wait to be asked to share. Be aware that not everybody will always have the chance to speak, though teachers will ensure that everybody can contribute sometimes. Parents should communicate by email rather than contributing during the session.
- 4) **Use the chat function** – but only if it is appropriate and relevant to the discussion.
